

Name: [Muslim Aqeel Najim](#)

Mobile: +964 7700812579

E-Mail: info@m1oslem.com

Address: Iraq – Baghdad – Al-Dora

Summary of Qualifications:

Highly skilled Software Architect and Full-Stack Engineer with strong expertise in enterprise system development, server administration, virtualization, and IT infrastructure.

I design, build, and deploy complete systems such as CRM, ERP, HRMS, HIS , eKYC, and SaaS platforms, while managing ESXi environments, backups, networks, and security.

A results-driven engineer capable of leading development teams, delivering scalable architectures, and ensuring stable, secure, high-availability environments for banking and enterprise operations. experience network design and Penetration tests and virtualization

- **Experience in programming electronic controllers**
- **Experience in cctv, pbx exchange, fire alarms and security system**
- **Experience in Accounting**
- **Experience in design and online promotion**
- **Experience in Process Optimization & Custom Development**
- **xperience in Software Architected, Deployed, Automated, Workflow Efficiency**

Education:

- Middle Technical University - Computer Engineering

Bachelor's Degree 2019/2020

Work Experience:

- Al-Alimia Computer Center
Maintenance technician (Hardware & Software) 2010/2012
- Smart Touch For Mobile
Maintenance technician (Hardware & Software) 2012/2014
- Al-Qima For Software Solutions
IT Junior 2014 2015
- Al-Shahin Center For CCTV
Online Marketing & Installation and maintenance technician 2015/2017
- Al-Qima Academy For Education
C++ Teacher 2017/2018
- Plus 99 Company
System & Account Manger 2020/2021
- The Vision Center For CCTV & Security System
Owner/CEO 2017/2022
- Hala Al-Rafidin Company For Communication and internet LTD.
NMC & Technical Support Officer 2021/2023
- Al-Budoor Hospital .
IT Manger 2023/2024
- Trust International Islamic Bank
Software Development Manger 2024/NOW

Software Engineering :

- C#, ASP.NET Core, PHP (Vanilla / Laravel), JavaScript
- Python (AI / OCR / Liveness / Face Recognition)
- REST APIs, Webhooks, Microservices, Clean Architecture
- Multi-Tenant SaaS Design, Authentication Systems
- Databases: MySQL, MariaDB, PostgreSQL, SQL Server
- AI: N8N – Automation , TTS/STT, OCR Pipelines , OpenAI API
- Version Control: Git, GitHub, Docker

Servers & Infrastructure :

- VMware ESXi (Advanced): Snapshots, Templates, Clustering
- Windows Server (AD, DNS, DHCP), Linux (Ubuntu/CentOS)
- Apache, Nginx, IIS, XAMPP hosting
- Backup Systems: Full, Incremental, Replication, Disaster Recovery
- Storage Systems, RAID, NAS, Network Shares
- Monitoring: PRTG, Zabbix, SNMP, RoomAlert

Networking & Security :

- Cisco Switching & Routing
- Fortinet Firewalls (Policies, VPN, Routing, Security Profiles)
- Mikrotik (Routing, Load-Balancing, VPNs)
- VLAN, VPN, QoS, Network Segmentation
- Penetration Testing (CEH knowledge)
- Secure Coding, Server Hardening, Access Control

Certifications:

- CCTV
- Video Editing
- MS Excel
- Computer Hardware
- Online Marketing
- Graphic Design
- CEHv6 (Expired)
- Quality Management (ISO 90001)
- Fortinet FCA (Cybersecurity)
- Fortinet FCP (Administrator 7.4)
- splunk

OS:

- Windows
- Mac
- Linux

Languages:

- Arabic
Native Language
- English
Good
